## HTML

<body> script einbinden

variable für Spieler (Anzahl)

Variable für Kartenpaare - Array - for Schleife → abhängig von der Länge des Array

```
CSS: .div { float: left;
           width:
           height:
           background-color:
           ...
        }
```
